// ABOUT

Nigerian-born fullstack developer who ships fast and thinks in systems. I build at the intersection of modern web, Web3 protocols, and AI tooling — from RWA tokenization platforms to DeFi terminals and AI execution layers. Born in Lagos, building for the world.

// EXPERIENCE

Fullstack Developer — Midcentury Labs

2022 — Present · Lagos, Nigeria

- Built and shipped 8+ Web3, AI, and fullstack products end-to-end — architecture to deployment.
- Developed RWA tokenization platform (AssetDot), DeFi terminal (Arc Terminal), and AI execution layer (ORO).
- Built decentralized apps on Shelby Protocol including ShelbyChat and CertVault.
- Delivered onchain bounty board (ArcBounty) with real USDC settlement via Arc SDK.
